PRODUCT BENEFITS

1 PCL Protection Support Pad

The pad presses actively on the tibia (shinbone) and holds it in the desired position.

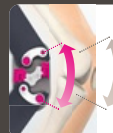

2 Individually adjustable tensioning dial

The integrated tensioning dial enables the support pad to be adjusted exactly to suit the individual patient.

3 Physioglide hinge

The flat construction of the hinge enables the orthosis to be worn under clothing.

4 Tool-free wedge change

Physioglide TF: the joint construction with tweezers in each hinge cover provides for tool-free wedge changes

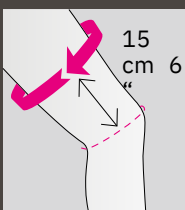

5 Pre-formed tibia pad

The pad distributes the pressure comfortably.

If offers : High comfort in wear in turn contributes to patient compliance - Thus to Successful therapy.
